

Accessory trolley

5080-Accessory trolley for various kitchen equipment

5080 -Accessory trolley helps to get the kitchen in order.

5080 Accessory trolley keeps device specific accessories stored and brings them there where they are needed. With the accessory trolley the food making process can be intensified by making sure, that the accessories needed are close at hand, and that they easily can be moved to the right location in the kitchen.

The trolley is equipped with 6 rubber castors with ball bearings. 4 of the castors are equipped with brakes. The trolley has GN-runners for containers. 7 runners are below the work space and 1 pair of runners are on the other side, which can be used as splash guard for the bottom or drip tray. GN-containers with lids (optional) are good for keeping smaller parts such as scrapers, spare parts, gaskets, protective equipment and disinfectants.

The delivery includes 4 pcs pre-assembled perforated plates with 144 holes. The holes are fitted with hooks for storing items. The hook series includes 15 hanging hooks of 60 mm and 15 hanging hooks of 160 mm. Hooks can be used for hanging: paddles, strainer plates, mixing rods, hoses and other large accessories. If the hooks are installed on the inside of the trolley, it's easier to keep the trolleys side by side.

Trolley dimensions 774x562x1763 mm
